

Pure profile: Linking your ORCID ID

The ORCID synchronization in Pure enables individuals to create their ORCID ID directly from Pure, and links the individual's profile with their ORCID ID.

Go to 'Edit profile' from the Personal overview screen to open the Person editor screen. From there, select 'Create or connect your ORCID ID':

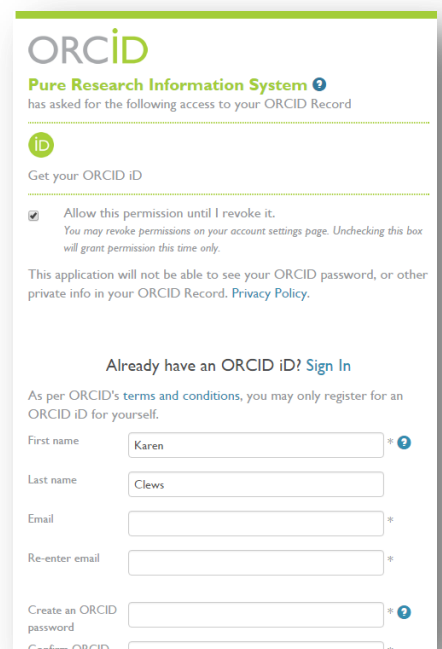

You will be directed to an information screen advising that you will be directed to the ORCID site:

If you already have an ORCID ID **do not create a new one**, just sign in with your existing ID and this will link it to your Pure account.

If you don't have an ORCID click on **Register now** and follow the prompts on the page.

Following the authorization, you will be re-directed back to your Person editor screen, where it will be confirmed that the authorization was successful and the ORCID ID was linked. **Remember to save the record!**

For further information about ORCID:

Pure profile: Linking your ORCID ID

Once your ORCID is setup and added to your Pure account, it is possible for your ORCID to auto-update on a weekly basis from your Pure account.

Step 1: Select **Authorise export of content to ORCID** from the Personal overview screen or within the Person editor screen.

The image shows two screenshots from the Pure system. The left screenshot is the 'Personal overview' page for Josephine Bloggs, with a red box highlighting the ORCID ID '0000-0001-7870-7370'. The right screenshot is the 'Person' editor screen for Josephine Bloggs, with a red box highlighting the 'Authorise export of content to ORCID' button.

The dialog box titled 'Connect with your ORCID ID' explains that users will be directed to the ORCID site to generate or authorize their ORCID ID. It lists the content that will be exported: institutional affiliations, other personal identifiers, Pure portal URLs, and research outputs with specific visibility and workflow status settings. 'Proceed' is highlighted in blue.

Step 2: You will be directed to a screen advising what content will be exported, click **Proceed**.

The ORCID authorisation screen shows the ORCID logo and 'PURE' branding. It lists permissions: 'Update your affiliations', 'Update your biographical information', 'Update your works', and 'Get your ORCID iD'. A checkbox is checked for 'Allow this permission until I revoke it'. Below, there are fields for 'Email or iD' (0000-0001-7870-7370) and 'Password', along with 'Deny' and 'Authorize' buttons.

Step 3: You will then be directed to the ORCID authorisation screen.

Once authorised, you will be directed back to your Person editor screen, where it will be confirmed that authorisation was successful and the content was exported. **Remember to save the record!**

The screenshot shows the 'Person' editor screen for Josephine Bloggs. The ORCID ID '0000-0001-7870-7370' is displayed with a green checkmark. A red box highlights the 'Export' button next to the ORCID ID.

Once setup, you can manually export content to ORCID from the Person editor screen by clicking **Export**

Automatic Exports to ORCID will continue to run unless switched off.
