# Storyline 2

Create interactive e-learning, easily. Anything you can imagine, brought to life.

Start right away with a familiar user interface and highly intuitive features.

Create interactivity with unrivaled ease and speed with innovative slide layers, triggers, and states.

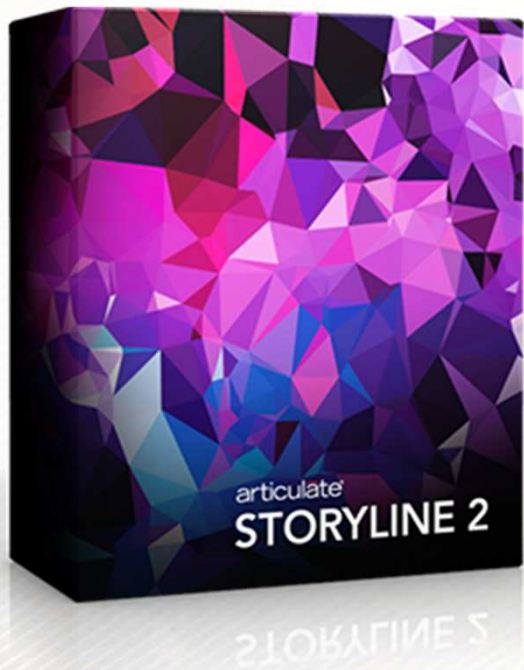

Get drag-and-drop, quizzing, screen recording, software simulation, and more—in one tool.

Get courses to learners anywhere—publish to HTML5, Flash, Android, and iOS.

# Storyline - Demo

So, what does Storyline  
actually look like?  
And, how does it work?
