## Celebrating Success

It has been an incredible year for the University with a great deal to celebrate. Colleagues across academic and professional services have continued to perform at the highest standard, with many gaining awards, prizes and grants in recognition of their exceptional efforts. There will be a special edition of *Buzz* magazine to formally recognise such achievements. In order to do so we will need your assistance to identify all the prizes and awards received by staff over the last academic year. We are not looking for research grants but would like to include as many other awards and prizes as possible, although cannot guarantee that everything will be included. Please could you send details of all the awards and prizes from your area to [Internal Communications](#) by Friday 15 August.

## Life Sciences Review – your opportunity to contribute

The University is currently in the process of conducting a Life Sciences Review in order to develop a co-ordinated strategy at University level that allows us to deliver world-leading research and teaching. The review will assess our current portfolio of activity across the broad span of life sciences, identifying existing and potential future strengths. It will also define links with relevant partners and stakeholders to ensure that we continue to enhance our national and international profile in this area. To support the work of the academic advisory group conducting the review, the opinions and input from across the University community are actively encouraged. [Find out more](#).
