MSc Financial Management

At the heart of every nation's economy, finance offers a world of interesting, challenging and highly lucrative careers. Our dual qualification MSc is designed for graduates with a quantitative background but who have limited knowledge of economics, accounting or finance. It provides the knowledge and skills you need to work in financial management and can give you a significant edge in this competitive global sector. The Association of Corporate Treasurers (ACT) have selected Birmingham Business School as an **Accredited University**. This means on graduating from our programme you will hold both academic and professional qualifications, making our Financial Management programme unique. We are one of very few universities to collaborate with ACT on the offering of a dual qualification programme for their new certificates.

During your studies you will develop critical knowledge of corporate finance, and foreign exchange and foreign exchange markets, learn how to interpret and analyse financial statements, and build skills in a wider range of modelling techniques. You will also have the option to acquire in-depth understanding in a variety of areas depending on the optional modules you choose.

MSc Investments

Trading and investing offers an exciting career path, but also demands a high level of theoretical knowledge and technical skill. This course offers you a springboard into employment with an investment corporation or as an investment specialist manager. You will be taught theory and technique by our internationally renowned academics, while professional traders give you real-world insights into the industry, sharing their first-hand knowledge of current market regulations, techniques, customs and practices. The programme equips you with the skills and knowledge to begin and progress your career across both domestic and international markets.

The University of Birmingham is proud to have been accepted into the CFA Institute University Affiliation Program. Our MSc Investments programme has been acknowledged as incorporating at least 70% of the CFA Program Candidate Body of Knowledge (CBOK) and this positions students well to obtain the Chartered Financial Analyst designation, which has become the most respected and recognised investment credential in the world. Entry into the CFA Institute University Affiliation Program signals to potential students employers, and the marketplace that our curriculum is closely tied to professional practice and is well-suited to preparing students to sit for the CFA examinations. Through participation in this programme, Birmingham is also eligible to receive a limited number of student scholarships for the CFA Program each year. The School's Department of Finance also holds the gold standard of recognition as a Centre of Excellence in the provision of finance teaching by The Chartered Institute for Securities and Investments (CISI).

This leaflet was written several months in advance of the start of the academic year. It is intended to provide prospective students with a general picture of the programmes and courses offered by the School. Please note that not all programmes or all courses are offered every year. Also, because our research is constantly exploring new areas and directions of study some courses may be discontinued and new ones offered in their place.

Please note the information in this brochure is correct at time of publication but may be subject to change (November 2019).
