Here at Birmingham, our campus is now even better, with the addition of the Aston Webb Student Hub.

The Student Hub is home to a wide range of support services and is the University’s central signpost for any advice or help that we may need during our time at Birmingham. It puts student support right at the heart of campus, in one of the University’s most iconic buildings.

The Student Hub brings together a range of the University’s support facilities under one roof, making it even easier to reach the help and information that we all need sometimes.

Located in C Block of the Aston Webb building, it can be easily reached through the main central entrance or through the foyer of the Bramall music building.

Whether we have a question, need an ID card or a bank letter, the Student Hub has a dedicated Student Information Team who are on hand to help. As well as this, it is now home to Careers Network and support facilities such as Counselling and Wellbeing, Disability Services, Mental Health and Learning Support. At the Student Hub we are able to attend appointments and workshops run by these specialist services in the suite of consultation rooms.

The Aston Webb Student Hub: Support for students at the heart of our campus.
