# Introduction

Central to the mission and vision of the University of Birmingham is the promotion of equality, diversity, and inclusion. On our founding in 1900, a core commitment was to accept women and people of all religious backgrounds as equal members of the University community. Today, the University of Birmingham has nearly 40,000 UK-based students with diverse backgrounds, identities, perspectives, and lived experiences. Understanding the composition of our student population helps us to create mechanisms to address inequalities and promote an inclusive campus culture for students.

This report shows the University of Birmingham's student body as of the 1<sup>st</sup> of November 2025 in relation to the Equality Act 2010 protected characteristics. The University publishes this information annually on data collected which is related to age, disability, gender reassignment, race, religion or belief, sex, and sexual orientation. Students provide information on their protected characteristics at the start of each academic year and can update their data throughout their study via the student record system. The University does not collect or hold specific data for statistical analysis in relation to students who are married or in a civil partnership or are pregnant or on maternity leave.

Data on each protected characteristic is shown by the level of study, unless the number of students disclosing a particular characteristic is equal to or less than 10 per category.

## Notes on the data

The table below sets out the definition and disclosure rates for each protected characteristic. Within each protected characteristic, the University uses the descriptors provided by the Higher Education Statistics Agency (HESA) for students to select from.

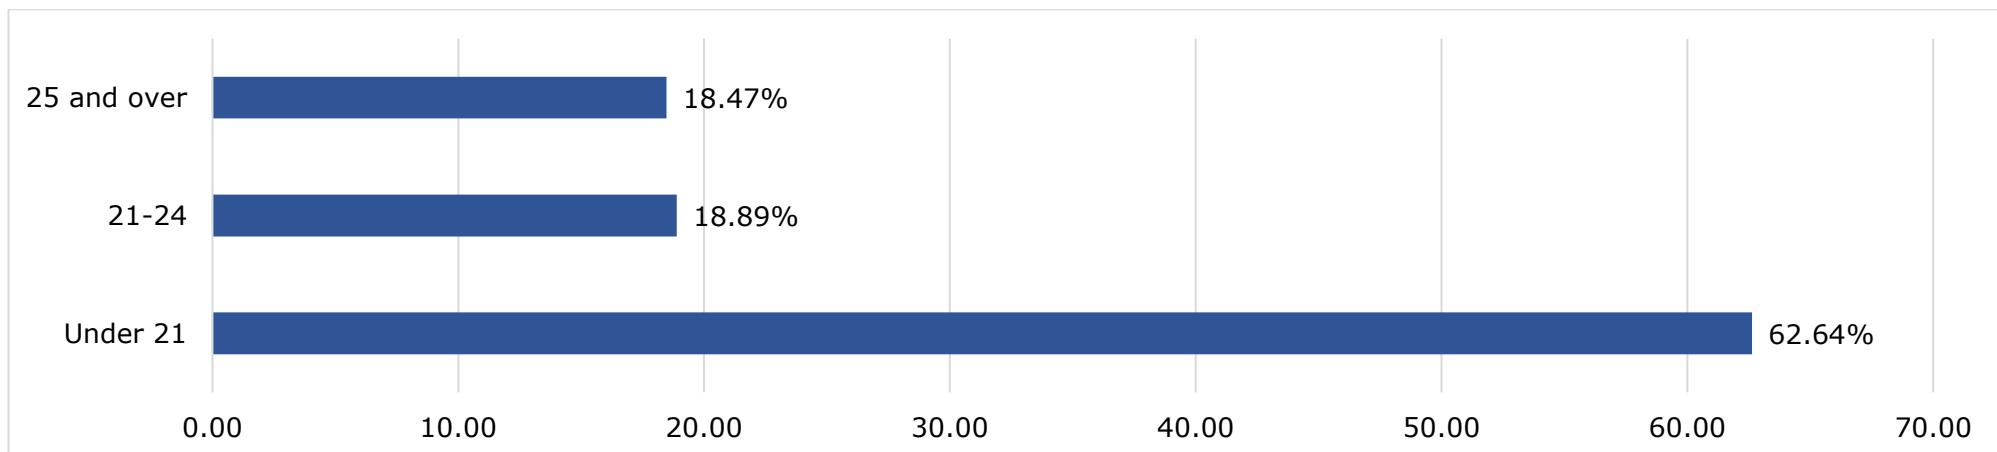

Protected characteristic	Equality Act 2010 definition
Age	A person's specific age and age group
Disability	A person who has a physical or mental impairment that has a substantial and long-term adverse effect on the ability to carry out normal day-to-day activities.
Gender reassignment	A person is proposing to undergo, is undergoing, or has undergone a process (or part of a process) for the purpose of reassigning the person's sex by changing physiological or other attributes of sex.  The University asks students about their 'gender identity' and if this differs from their birth sex. This will include students who fall within the Equality Act 2010 definition of gender reassignment and students who do not.
Race	A person's colour, nationality and ethnic or national origins
Religion or belief	A person's religion, philosophical belief or lack of religion or philosophical belief
Sex	A man or a woman of the same sex
Sexual orientation	A person's orientation to people of the same sex, of the opposite sex or of either sex
