

Thesis Restricted Access Application Form – Publication Pending

Criteria

This restriction category is appropriate where public availability of your thesis would contravene the terms of an existing signed publishing contract. If your funder requires your thesis to be publicly available, you should explain this to your publisher and request a waiver of their restriction rather than apply a prolonged embargo.

Limitations and requirements

Max Embargo Period: 5 Years

Extension Permitted: NO

Authorisation: No further authorisation required

Evidence Required: Details of the publication, estimated publication date and the specific language included in the contract which precludes open availability of your thesis. Where your funder requires a shorter embargo period, please detail what measures you have taken to keep the embargo period as short as possible
